Greeting To America.

WORDS BY BAYARD TAYLOR-MUSIC BY JULES BENEDICT. I greet, with a full heart, the Land of the West, Whose Banner of Stars o'ver the world is unrolled; Whose empire o'ershadows Atlantic's wide breast, And opes to the sunset its gateway of gold!

The land of the mountain, the land of the lake, And rivers that roll in magnificent tide-Where the souls of the mighty from slumber awa And hallow the soil for whose freedom they died!

Thou Cradle of Empire! though wide be the foam That severs the land of my fathers and thee, I hear, from thy bosom, the welcome of home, For Song has a home in the hearts of the Free! And long as thy waters shall gleam in the sun, And long as thy heroes remember their sears, Be the hands of thy children united as one,

And Peace shed her light on the Banner of Stars! There were three verses, but the first has been al grandiloquent nonsense of Fourth of July Odes. As a whole, the song is flat and commonplace.

A PARADOX AND ITS SOLUTION-AN INTERESTING ASTRONOMICAL FACT.—Two persons were born at the same place, at the same moment of time. After an age of fifty years, they both died, also at the same spot, and at the same instant, yet one had lived one hundred days more than the other. How was this possible ? Not to keep our friends in suspense, the solution turns on a curious, but, with a little reflection, a very obvious point in circumnavigation. A person going round the world towards the west loses a day, and towards the east he gains one. Supposing, then, two persons born together at the Cape of Good Hope, whence a voyage round the world may be performed in a year; if one performs this constantly towards the west, in fifty years he will be fifty days behind the stationary inhabitants; and if the other sail equally towards the east, he will be fifty days in advance of them. One, therefore, will have seen one hundred days more than the other, though they were born and died in the same place, at the latitudes, and reckoned by the same calendar.

The Death of Louis Phillipp:-Incidents of his Life. The death of Louis Phillippe, Ex-King of France, which occurred on the 26th ultimo, in England whither he took refuge on the breaking out of the revolution of 1848, deserves more than a passing notice. The following article from the Philadelphia Bulletin, gives, in a condensed form, many of the prominent incidents in his eventful life:

The Ex-King was born at Paris, on the 6th of October, 1773, and was, therefore, in the 77th year of his age. His father, the fourth Duke of Orleans, was descended from the younger brother of Louis the Fourteenth, and became notorious for his dissolute, selfish, and reckless life. In the revolution of 1789, he assumed the title of citizen Egalite, and voted to decapitate the King, his cousin. He afterwards perished on the scaffold himself, dying with a stoical sensuality which has made his name infamous for-

His eldest son was educated under the care of Madame Genlis, an accomplished woman, who lived in the family of the Duke secretly as his mistress. She was, however, faithful to her trust as teacher, and dragoons by inheritance, that post always descending to the eldest son of the Dukes of Orleans. Remembrances. Oft at the hour when evening throws Its gathering shades o'er vale and hill, While half the scene in twilight glows, And half in sunlight glories still; The thought of all that we have been, And hoped and feared on life's long way, Remembrances of joy and pain, Come mingling with the close of day.

The distant scene of youth's bright dream, The smiling green, the lustering tree; The murmur of the grass fringed stream, The bounding of the torrent free : The friend, whose tender voice no more Shall sweetly thrill the listening ear; The glow that love's first vision wore, And disappointment's pangs are here.

But soft o'er each reviving scene The chastening hues of memory spread; And smiling each dark thought between, Hope softens every tear we shed. O, thus, when death's long night comes on, And its dark shades around me lie, May parting beams from memory's sun Blend softly in my evening sky.

And 'tis so sweet a voice. That its soft lispings win me, Till tears start in my eyes ; Deep from my soul it springeth, Like hidden melody; And evermore it singeth This song of songs to me: " This world is full of beauty,

There is a voice within me,

OF THE SYSTEM, VIZ Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, enlargement and pain of the Bones and Joints, stubborn Uleers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Acitites or

Dropsy, Exposure or imprudence in life; also, Chronic Constitutional Disorders, &c. This medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and bones balf carious, has been estored to health and vigor. The scrofulous patient, covered with ulcers, loathsome to himself and his attendants, has een made whole. Hundreds of persons, who had grouned opelessiv for years under cutaneous and glandular disorders. bronic rheumatism, and many other complaints springing om a derangement of the secretive organs and the circulaon, have been raised as it were from the rack of disease, and caey of this inestimable preparation. The testimony of those ed style, and is constantly manufacturing, at his store on who have been cured by its use, with their residences, has been published from time to time; and, were it desirable, a ted to make a trial of its virtues, and appropriate to them-

In this dreadful situation, with the prospect of death staring her in the face, I stated her case to Dr. Disosway, the agent for Sands' Sarsaparilla in Newbern, N. C., by whom I was advised to use that article; and to my surprise and that of my neighbors, to whom her case was known, after using four and a half bottles she was restored to perfect health, and that in the space of three weeks, and was able to work in two weeks from the time she commenced taking it. In witness of the truth of this statement, I have hereunto affixed my name, this 19th day of September, 1847. JOSEPH McCOTTER, J. P.

Mouth of Neuse River, Craven county, N. C. Ulcer Cured of Seven Vears Standing. This cure was effected in July, 1844; there have been no symptoms of a return, and her health still continues good,

New York, July 25, 1844. Messrs. Sands-Gentlemen: I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate Cancerous I was attended eighteen months by a regular and skillful physician, assisted by the advice and counsel of one of our

most able and experienced surgeons, without the least benefit

whatever. All the various methods of treating cancers were resorted to; for five weeks in succession, my breast was burned with caustic, three times a day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity r internal ulcer was so large that it held over an ounce of the solution. The doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs. and if I did not get speedy relief by medicine or by an opera-tion, the result would be fatal. I was advised to have the breast laid open and the bones examined; but finding no re-lief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, and considered my Seeing various testimonials and certificates of cure by the

use of Sands' Sarsaparilla, in cases similar to my own, I concluded to try a few bottles, several of which were used, but, from the long deep-seated character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return. I therefore pronounce myself WELL and the cure entirely effected by Sands' Sarsaparilla, as I took no other medicine of any kind during the time I was using it, nor have I taken Please excuse this long deferred acknowledgment, which I

think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else could; and I feel myself under lasting obligations to you can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been to call upon me, and I will satisfy them fully of the truth as stated above, and many other things in reference to the case.

Sands' Celebrated Sarsaparilla. This excellent compound, which is creating such a universal interest throughout the country, has made its way successfully into the favor of our citizens and the people around us. We have read again and again of the efficacy of this invaluable medicine-if we can call a very pleasant beverage medicine -but not until recently have we had any positive proof which could induce us to speak fairly of it. But, from facts in our possession, we are now well convinced that, without any ex-

rheumatism and scrofula, and all impurities of the blood, to have just received, and are opening, their stock of Cigars, which they offer for sale cheap. Their stock consists in part of 10,000 La Victoria Regalia; 10,000 El Leon de Oro do.

BAILEYSBURG, Va., Dec'r 13, 1845. Messrs. A. B. & D. Sands-Before I commenced using your Sarsaparilla, my sufferings were almost past expression; my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the
